(4) has one in Rs 3/- (5) has a sweeper in
Rs 4/- but apparently he is working in the
wholesale Police Dept & is not available
for work in the Public Buildings. Now that
all the offices have been located in one
building it should perhaps be possible
to so arrange that the four sweepers
are utilized in attending to all parts

of the building. It is also a question whether an independent watchman is necessary. The firms of the several offices concerned should be held responsible to keep every thing tidy & it is scarcely possible for one watchman to do all the work enumerated by the Director in paragraph 3 of this letter. In this connection, attention is invited to paragraph 1043, ^{11.11.17} chapter X of the P.W. Code, Vol: I - 3. It is very doubtful whether the Govt of Madras will be inclined to sanction an additional establishment for this purpose. The P. B. O. being in charge of the building may probably provide any requisite establishment in order to keep the building in order. If approved, this note may be sent to him P. B. O. for further action.

Two additional sweepers & a woman were sanctioned by the Govt of India in Decr. 1904 to attend to the cleaning of certain parts of the Public Offices including verandahs, corridors & compound & to keep the premises tidy & clean. The sweepers Bhanu & Bannayyan have complained that they were dismissed because they refused to clean the latrines which did not form part of their work, but the Collector has reported that dismissal is due to their absence without leave & to their refusal to clean the latrines which they had been doing ever since the latrines were constructed. 3. In the first place there are only two mutchis for the six offices of District Magistrate & Collector, Second Magistrate, Bench Magistrate, Amildar, Excise Superintendent and Treasury Officer. These mutchis are attached to the offices of the Collector & Treasury Officer respectively.

4. In the Excise Superintendent's office there ~~are~~^{are} a Cooper and another servant but they work in the Distillery in Mysore Road and cannot be transferred to the new buildings.

5. The Cumber and 3 gollars in the Treasury and the shroff and gollar

6. The Sweepers attached to the several offices are already fully employed as pointed out in my letter No 1913 dated 25th July 1904. No savings could possibly be effected in the establishment of peons.

7. With regard to the Police guard alluded to in para (2) of your letter I enclose a copy of the District Superintendent of Police's remarks, from which it will be seen that the one constable thus employed will not be of any use.

role in the matter of watching the building.

8. I enclose a list of the menial establishments at present employed, also a list showing the number & extent of verandahs & corridors & the number of windows in the building. It will be seen that the verandahs, corridors & passages cover an area of 12,694 Sqr. feet. The tiled floors on both stories will have to be cleaned once a week.

9. It will be seen from the enclosed letter from the Registrar of the High Court of Madras
that

that the several Courts which occupy the High Court buildings make their own arrangements for the conservancy of the particular portions of the buildings in their occupation and maintain separate establishments of night watchmen and that a certain number of sweepers and watchmen are employed for the conservancy of the High Court who also look after the buildings, gardens, stables and Coach houses &c

10. I am of opinion that the staff at present employed is

is quite insufficient to undertake the work of watching and keeping clean the new buildings. I would therefore request that the proposed addition of one watchman and two sweepers be sanctioned as early as possible.

With reference to your letter No. 2232, dated the 29th instant, I have the honour to state that the whole of the Law Court buildings and the grounds attached to them have been placed by Government in the executive charge of the Registrar, High Court.

The several Courts, Law Officers and practitioners who occupy the buildings make their own arrangements for the conservancy of the particular portions of the buildings in their occupation.

A certain number of sweepers and watchmen are employed for the conservancy of the High Court, and the chambers of the Judges and Registrars. These form part of the establishment of the High Court and are under the immediate supervision of the Overseer who looks after the buildings, gardens and conservancy on behalf of the Registrar. These menials also look after the latrines and urinals of which there are three in the grounds.

The gardens, stables and coach-houses are under the control of the Registrar, High Court, through the Overseer. The High Court, City Civil Court and Small Cause Court have separate establishments of night watchmen. In addition to this, a police guard is maintained for the protection of the whole of the buildings.

We the undersigned beg earnestly to lay these our grievances before your honor and fervently trust it will meet with a favorable consideration.

We beg to state that we were entertained as Sweepers for the District Magistrate and 2 Thakjis. Court under sanction from the Government of India and on being entertained we were informed that we were only to sweep the courts and the yards and were given Service Books and were also informed that after a certain period of Service we would be granted a Pension or gratuity as the case may be and we worked on for 3 years, but to our surprise and misfortune after working under the immediate eye of the Thakjis. Thakji, the Health Dept. of the Municipality took us over and we were then ordered by them to clean the latrines also, and as we are not Scavengers we objected to this, since it is against our

Sir,

With reference to your memorandum

Sl. 14 No. 2256 dated the 23rd April 1908 forwarding
placed as Sl. 13 for report a petition (herewith returned
as requested) from Basawa + Savasogayam
late sweepers, I have the honor to state
that the men were entertained on 15th April 1908
and their duties were to keep all the
office buildings clean. When the latrines
in the out houses were completed the
cleaning of these became part of the
duties of these men, who belong to

class of scavengers and were enlisted as such.

2. They were actually doing the work of removal of night soil from the latrines but were doing it so irregularly that constant complaints were made and they were then ordered to work under the Health Officer on 25 November 1907. On the 5th December 1907 they complained that they had to appear at roll-call and in that petition they made no complaint of having to do scavenger's work, which they had been doing ever since the latrines were constructed.

3. They were exempted from appearance at roll-call but were ordered to work under the Health Officer as that is the only possible way of having their work supervised.

4. Subsequently the men having
absented themselves without leave
and refused to do the work of
cleaning the latrines they were
dismissed from the service on
the 7-12-1907.

Sir,

Entertainment of 2 sweepers and one watchman for the Public
Offices.

With reference to Mr. Messing's endorsement No. 120 dated 7th
January 1905, I have the honour to state that two sweepers at
Rs. 6/- each and one watchman at Rs. 7/- have been entertained
attending to the up-keep of the buildings and compound of the
Public Offices. Subsequently under the orders of Mr. Meade, the
then District Magistrate, these men were ordered to work under
the orders of the Health Officer in November 1907 so that they
might attend to the cleaning of latrines in addition to sweeping
of the Public Offices. They still continue to work under the
supervision of that department. Their pay was increased from
Rs. 5/- and 7/- to Rs. 7/- and 8/- with effect from 1st October
1914, in accordance with the orders conveyed in Mr. Warburton's
letter No. 3331 dated the 24th November 1914. The pay of the
watchman has now been enhanced to Rs. 15/- per mensem with effect
from 1st August 1920 while the sweepers get a pay of Rs. 7/-
a month each, bringing the present
total cost to Rs. 37/- per mensem. As the services of these
men are utilised for cleaning the latrines as well as for sweeping
the offices, a moiety of their pay may be considered as due
to the contingency work done by the Municipality, which is

costs Rs. 6/0/0 monthly? vide my letter No. 395-B dated the
16th December 1921

2. In addition to this, Government incur the cost of urinals and other receptacles supplied by the Deputy Assistant Director of Military Works which amount to about Rs. 100/- per annum. Thus the total cost per annum on account of the conservancy of the latrines amount to:-

Assumed moiety of 144/-	Rs. 222-0-0
Monthly conservancy charges "	67-4-0
Receptacles etc. "	100-0-0
Total	Rs. 389-4-0 or 390/-

3. In his letter No. H.D.O. 152 dated 18th September 1921, the President, Municipal Commission requests that a further sum of Rs. 144/4/0 incurred by him annually towards the purchase of disinfectants and other sundry conservancy articles for use in the Public Offices and latrines attached to them, may also be met by Government. I consider this reasonable.

4. This extra charge has not been anticipated and no provision is included in the budget for the current year under "24 Administration of Justice."

I request the orders of the Hon'ble the Minister in the matter.

I have the honour to be,

your most obedient servant,

Collector & District Magistrate.
